SFS PLASTICS MILK 1 FEEDER

Product Details

The SFS Plastics Milk 1 Feeder is manufactured from Heavy Duty polyethylene and is designed as a milk delivery system for single calf use.

The compartment is fitted with a pull through Peach Teat (one of the most popular teats in use) and holds approximately 7 litres of liquid. It is designed to hook over a gate or rail. Can also be fitted with a smaller teat for single lamb feeding.

Specifications

Length 290mm

Width 230mm
